

System Freight Receives

US EPA 2020 SmartWay Excellence Award

Award Recipients are Top Environmental Performers and Leaders for Freight Supply Chain Efficiency

Release date 11/05/2020

Contact Information:

System Freight – Jamesburg NJ was honored with a SmartWay® Excellence Award from the U.S. Environmental Protection Agency as a true industry leader in freight supply chain environmental performance and energy efficiency. *System Freight adopted fuel-saving technology, to save fuel, reduce carbon dioxide emissions, and generate fuel savings to the company in addition to reducing their carbon footprint.*

System Freight was one of 58 truck and multimodal carriers to receive this distinction, representing the best environmental performers of SmartWay's 3700 Partners. This year's awards were announced at a virtual press event hosted by the EPA with its SmartWay Partners, key stakeholders and media in attendance.

"EPA is pleased to honor these SmartWay Partners with a 2020 Excellence Award," said Karl Simon, Director, EPA's Transportation & Climate Division. "These carrier Award recipients continue to lead through these challenging times, working diligently to deliver to our families the goods and supplies we need each day, while contributing to a healthier, more sustainable future for our children."

System Freight – Jamesburg NJ is a Dedicated Fleet Transportation Provider specializing in low cost, just in time dedicated transportation and services to manufacturing industries since 1975. System Freight corporate offices are located in New Jersey and the company operates dedicated fleets throughout the Northeast, Mid-Atlantic and Eastern Midwest United States.

About SmartWay

EPA's SmartWay Transport Partnership is a market-driven initiative that empowers businesses to move goods in the cleanest, most energy-efficient way possible, while protecting public health and reducing air pollution. Demonstrating a commitment to corporate sustainability and social responsibility through SmartWay provides for a more competitive business environment, while enabling partners to make freight decisions that have a positive impact on efficiency and the environment.

Since 2004, SmartWay Partners have avoided emitting more than 134 million metric tons of harmful air pollution, while saving 280 million barrels of oil and \$37.5 billion in fuel costs – equivalent to eliminating annual energy use in over 18 million homes. SmartWay partners also help protect clean and healthy air by significantly reducing pollution that contributes to smog, including fine particulate matter and nitrogen oxides.
